Japan Environment Association (JEA) Eco Mark Label indicates that the product manufacturer and the product meet the following:

The manufacturer practices

- Environmentally conscious product design and manufacturing (including 3R's – reduce, reuse, recycle)
- Ink cartridge collection system, reuse, recycling and ease of resource
- Environmental information disclosure

The products meet specific criteria for

- ink component use
- a negative result in the Ames test
- being equipped with the ink MSDS
- ink cartridge material use
- packaging material use
